The Kelly Gang

PENDANT LIGHTS

Of all the icons in Australian history, to many none are more dramatic than the helmets of the Kelly gang! The Kelly gang lighting collection is a contemporary series of tubular sculptural lights inspired by the forms of those helmets. The lights are laser cut from extruded aluminium tube with a powder-coated outer finish and an anodised or powder-coated inner finish. The Kelly gang lights emit a soft, warm light through the slotted visor with a more abundant warm glow flowing from the bottom which will reflect the interior gold or other colours, enhancing the contrast against the exterior.

LAMPHOLDER - brass or bronze threaded Edison E27
CANOPY - black
CORD - 2m | black | longer lengths available upon request
RECOMMENDED GLOBE - 8w - 12w E27 led, warm white
